

ORIGREEN

Problem

ITQ

Smart Greenhouses collect detailed data for each vegetable.

How do we get this information to Eugenio?

Our Solution

ORIGREEN

With our **interactive AR App**, Origreen, you can access all the information you about your veggies.

Our Solution

LIVE DEMO

Future Possibilities

Smart Greenhouse

Engrave the QR-Code into the veggie with a laser.

Compare

Choose based on your own values.

Recipes

Get inspired to try new vegetables.

Restaurants

Create a combined QR-Code for all ingredients.
